

Friday April 26th • 7:00 am

United Way building 401 North Young Street, Kennewick

Come have breakfast on us and enjoy listening to our guest speaker, Jim Grenfell director from AWARE. AWARE is an organization that has designed programs that teach youth to recognize the signs of when a pimp may be preying on them and learn how pornography is the new drug and its addictive nature. Afterwards, we will have a brainstorming session on some of the following topics:

- Methods for teaching youth about the addictive nature of pornography
- Creating a list of resources of programs available to those with pornography addictions
- Understanding what sex trafficking is, what's happening in our community and how men can protect our youth from becoming victims
- Planning events that increases awareness and empowers men to be defenders of our youth
