Help youth prepare for healthy, fulfilling relationships. In today's world to do this you have to talk about porn.

The simple truth is that porn is addictive and destructive. It's just a website, pop-up window or email away from young people.

Help protect children from the very real dangers of sex trafficking! Help them to understand and guard against the manipulative tactics being used by sex traffickers and to be able to recognize and respond to dangerous situations

Sign up for both classes and pay \$45/person
